**The Czech Ministry for Regional development
project No. WB-41-04
Brownfields for public administration**

Project

- Consortium of the partners
 - EC HARRIS s.r.o. <http://www.echarris.com>
 - DHV CR, s.r.o <http://www.dhv.cz>
 - IURS, o.s. <http://www.brownfields.cz>
 - ČVUT, faculty of building <http://www.web.fsv.cvut.cz>
 - Město Brno <http://www.brno-city.cz>
- The project includes 16 coherent parts
- Project duration 09/2004 – 12/2006
- Sponsored by Ministry for Regional Development

PRIMARY TASKS

- Presentation of the brownfield problems to the general public**
- Easy revitalisation tools for municipalities**
- Support regions to analyse the brownfield situation in municipalities**
- Create a unified database of „brownfields“**
- Using positive international experience for the purpose of revitalisation of brownfield areas**
- Informing of the general public of how they can help with the re-enactment of such statute for the time of it being enforced**
- Associate with other brownfields projects**

PROJECT DEVELOPMENT

- Several meetings have been held with the Bureau of Central Bohemia Region which supports this project
- Introduction Seminars for municipality deputies, regions and ministries have been held
- Web site has been created
- Database of case studies which is continuously being updated (intended for professional analyses)
- Unified database brownfields has been created in the area of the Central Bohemia Region (productive developments and communication with municipalities)
- International conferences (Cities of tomorrow, Birmingham, Sofia Nicol - contaminated land network meeting)
- Communication with other projects of „brownfields“

ACTIVITIES IN 2005

- Press conference about the experiences and the progress of „brownfields“
- Presentation conferences on national and international levels
- Professional analyses of the case study database (avenues of approach and strategies)
- Unified database of „brownfields“ in the Central Bohemia Region (obtain data, analyse situation, methodology, supervisory and decision process)
- International approaches to the „brownfields“ solutions
- Enactment

SCHEDULE FOR 2006

- Application of methodology created in 2005
- Petition for progress of enactment
- Assistance to the Central Bohemia Region with the analyses of acquired data and the proposal for applicable proceedings
- Assistance to selected communes with the help of professional analyses leading to project development
- Assistance in the preparation of the international project with the participation of municipalities and regions
- Publication and propagation
- Cooperation and communication with other brownfields project

We thank you for your attention and look forward to the opportunity of a mutual exchange of our experiences
